MAKER GARAGES		Capacity up to 80	→ 24

The Drivery is a perpetual motion machine of the most innovative companies in mobility and brings together futurists, makers, thinkers, and doers who are all passionate about shaping the future of mobility. Next to the beautiful Teltow Canal you can find 10,000 m<sup>2</sup> space of an integrated maker garage, multifaceted coworking and fabulous event spaces.

All located in the breathtaking historic Ullsteinhaus featured with high-speed WiFi, brand-new and modern equipment, natural daylight and a brilliant event coordinator who creates with you your individuell concept to stage your next event. No matter whether it is a Hackathon, a Conference, an Award Show, a Meet-up or a Barcamp, we guarantee you a dynamic and thrilling event experience.

# TAILORED SERVICES FOR EVENTS

ADDITIONAL EVENT  
management can include security, hosting,  
additional furniture, catering and more.

# DEEP SPACE

Expansive 700 m<sup>2</sup> event hall

Capacity up to 400

Talks, presentations, panel events, demo days, screenings, and showcases

The Deep Space, the biggest of four event spaces and a real show-stopper comes without the radiation, lack of gravitational pulls, black holes and unknown, never-ending vastness of real deep space.

Instead, the 400 visitors will expect an open, bright room, which is equipped with Berlin's largest indoor HD LED screen and a brand new audio system. The impressive event hall is perfectly suited for talks, presentations, showcases and launches and will keep audiophiles and presenters happy alike.

With the easy-to-use audio system interface, high-speed WiFi and the wireless microphones the setup is a snap and ready in no time.

Whether you want all eyes facing forward to the main stage or desks set up for getting down to business, this flexible space offers a number of setup options for you and your visions and won't disappoint in hosting your event.

230" Full HD 1080p Screen

Numerous setup options available

# ALGORITHM FARM

Professional 200 m<sup>2</sup> space

Capacity up to 45

Perfect for hackathons,  
work retreats

GPU processing power for  
deep learning

The Algorithm Farm is the place to be for all the tech-savvy people. It's a safe and calm area used for cultivating ideas, structuring data, tending to code bases and putting notions into motion.

With 22 screens, 44 desks and high-speed WiFi this space is ideal for hackathons and work-focused retreats. So innovators can plug in quickly to the world wide web and get started exploring, collaborating and building a bright and economic future.

Enjoy the late night grind? Hackathon participants have 24/7 access to facilities. Need refreshments? Ask about our catering services for drinks and snack options.

# HANGAR 18

Modular 180 m<sup>2</sup> space

Includes a cooking area

Capacity up to 80

Perfect for pitches, lunch & learns, networking receptions, happy hours and catered events

Unfortunately you won't find planes in our Hangar 18 but what you can find is a flexible, modular and spacious area for networking that can be adapted into three separate breakout rooms for more intimate gatherings.

The special thing about Hangar 18, it includes a modern cooking area. So it is also perfect for lunch & learns, happy hours and catered events.

This space is terrfic for lunch & learns, workshops, board meetings, or networking.

98inch UHD 4k Screen

# MAKER GARAGES

Modular 500 m<sup>2</sup> space

Capacity up to 80

Perfect for pitches, hands-on meetings, networking receptions, happy hours and catered events

A truly unique space, the Maker Garage is the playing field for mobility with eight separate hardware studios that are designed to accelerate ideas in real-time.

Each hardware studio features 6x6 m<sup>2</sup> of workshop space on the ground level and 30 m<sup>2</sup> of office space directly above — allowing makers to iterate and innovate quickly.

If you are thinking Back To The Future meets present-day tech, then you're on the right track. The Maker Garage has all one needs to go full-on Doc Brown and Marty McFly including a 3D-Printer, lathe, 4-axis mill, and TIG/MIG/MAG welding equipment, and specialized tools such as multi-channel oscilloscopes, laboratory power sources, and function generators.

The Maker Garage's biggest feature is that you also have the opportunity to exhibit your own vehicles. This is a very unique benefit compared to the conventional event areas in Berlin.

Fully-equipped maker garage

The Drivery team will help you to get used to the cutting-edge equipment and tools, so you can speed up the development of your project. Therefore this studios are truly perfect to make your dreams about the future of mobility coming true.

Office space above workshop
